

CITY OF
Port Adelaide Enfield

P.A.E today

Smart Cities | City Plan Review | Twilight Christmas Parade | Hanson Velodrome | The Lights

“The City of PAE acknowledges and pays respect to the traditional custodians of the land on which we stand, the Kurna people of the Adelaide Plains and pays respect to Elders past, present and emerging. We recognise and respect their cultural heritage, beliefs and relationships with the land. We acknowledge that they are of continuing importance to the Kurna people living today”

Mayor Claire Boan

Welcome to *PAE Today*, our exciting new look Council newsletter. It contains the latest news about our PAE community, plus the projects underway and programs on offer here, and is available in both print and online formats.

We have been busy focussing on a number of environmental initiatives to make sure you can enjoy our open spaces even more as the weather warms up for Spring.

With over 7,000 native shrubs, grasses and trees planted in Pitman Park, Roy Amer Reserve and Thomas Turner Reserve during Winter, we have been improving biodiversity and creating homes to attract native fauna to these areas.

The Lights Community and Sports Stadium has been a major investment for PAE over the last three years. In October we will bring to fruition our commitment to create an inclusive and accessible space for the people of Lightsview and beyond.

We have also completed a major upgrade of the velodrome at Hanson Reserve, to build a facility for local cycling clubs and the wider community, so head there in November for an open day, which will really get Hanson Velodrome into top gear.

We have had a new community garden ‘spring’ up in Greenacres, which was established through a Fund my Neighbourhood Grant. It will be wonderful to see this garden grow over

time with nurture from the community. To ensure that you get the most of living, working, studying and caring for others in PAE, we offer regular opportunities to have your say about what is important to you, and how we can cater for your needs. Please find more details on Page 6 and make sure to follow @CityofPAE on social media.

Getting out and enjoying nature can make a real difference to how we feel. With the warmer weather on the way, it is a fantastic time to get out and be active in the gardens, parks and open spaces across the City of PAE.

Ward in focus
Parks

The Parks Ward is situated in the centre of PAE and includes the suburbs of Angle Park, Croydon Park, Devon Park, Dry Creek, Dudley Park, Ferryden Park, Gepps Cross, Mansfield Park, Ottoway, Regency Park, Wingfield and Woodville Gardens.

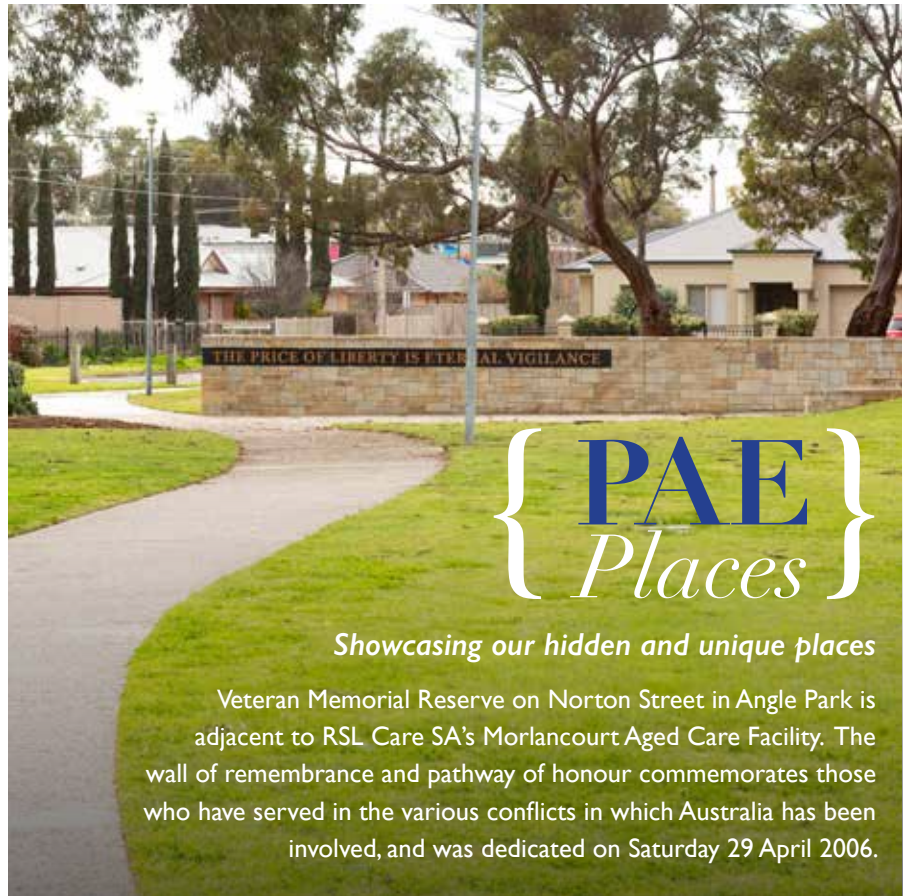

This ward has a slightly younger population when compared to the rest of PAE. There is also a significantly higher proportion of Parks residents born in Vietnam and who speak Vietnamese at home.

Total population
21,991

Total households
8,998

Overseas born
53.3%

Speaks a language other than English at home
60.6%

Showcasing our hidden and unique places

Veteran Memorial Reserve on Norton Street in Angle Park is adjacent to RSL Care SA's Morlancourt Aged Care Facility. The wall of remembrance and pathway of honour commemorates those who have served in the various conflicts in which Australia has been involved, and was dedicated on Saturday 29 April 2006.

Cr Kim Dinh

Parks Ward is culturally diverse and full of wonderful eateries, businesses, parks and reserves. The Gepps Cross Treasure Market evokes great memories for me as I used to go there often when I was a kid. The market is still going strong and is one of the largest outdoor markets in our city. The recently opened Parks Library with its latest technology and open space is another attraction in Parks Ward. Its completion was a fantastic achievement by our Council. I enjoy making visits there with my children, borrowing books for them and watching them play in the nearby playground.

Cr John Croci

There are many wonderful open spaces in the Parks Ward, and each helps reflect the history of the area and diversity of our community. Richard Day Reserve on York Terrace reflects our colonial past. Tao Dan on Sutherland Road has elements that recognise the strong Vietnamese community.

I have been advocating for the care of our parks for the fifty years I have lived here. The variety and accessibility of the open spaces here in an urban area is one of the best things about life in the Parks.

Cr Kat Mitchell

I've always been a keen reader and student, so when I moved to the Parks Ward six years ago it felt something was missing. Now with the new Parks Library (opened October 2018), the community is really coming together. I now visit the library at least 2-3 times a week where I can study, read, or borrow from the toy library – my toddler loves the puzzles! Every time I visit there seems to be something different and interesting happening especially the innovation on display in the MakerSpace. My favourite part is how well used this library is, and how many regulars I see.

Notes from PAE Council Meetings

June

- Discussed an approach to street naming in Enfield, using a selection of Kurna words and names
- Recommended an e-scooter trial across PAE and neighbouring coastal councils
- Investigated a Greyhound Dog Park session for this breed of dogs to be able to be off their leash at a set time

July

- Heard deputation from Australian Naval Institute about the development of a plan for Mutton Cove
- Commenced research with the Environmental Protection Authority to monitor air quality on Lefevre Peninsula
- Considered the installation of electric vehicle charging stations in PAE

August

- Heard deputation from the Australian Anti-Poverty Network about the Newstart Allowance
- Considered many road issues, including road reserve closures, road openings and traffic management
- Accepted a progress report about the Heritage Plaque Scheme, which highlighted interest in the project

HOME IS WHERE THE SMART (CITY) IS

We recently received funding from the Federal Government's Smart Cities and Suburbs program to bring innovative, technology based solutions that will improve liveability in PAE now and into the future.

The historic Port Centre has recently been “switched on” with free wifi now available.

DOWNLOAD OUR NEW APP AND TAKE A TRIP AROUND HISTORIC PORT ADELAIDE

The Visit Port Adelaide app is the must have resource to help you find somewhere to eat or something special to see in the area, and features tours, interactive maps, information, guides and more. You can also plan your trip using the Day Planner feature.

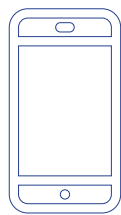

The Visit Port Adelaide app features a number of tours including Walk the Port, Heritage Plaques and a fun, interactive Ghosts of the Port ghost hunting tour with augmented reality. A Smart Kiosk has also been installed next to the Port Adelaide lighthouse on North Parade to help locals and visitors alike, to find your way around and learn more about the local area, attractions, businesses and history, no matter what time of the day or night you are here.

This project was created and implemented by PAE with input from local Port Adelaide businesses and was funded by a Smart Cities grant from the Federal Government.

Download the FREE Visit Port Adelaide app today by visiting the Apple App Store or Google Play Store and searching for “Visit Port Adelaide”.

▲ Heat sensor at Thomas Turner Reserve

With smart phones and devices now a part of daily life, did you know you can also carry your local library's entire catalogue in your pocket?

Go digital and download the Libraries SA App from the App Store or Google Play.

▲ Mayor Claire Boan using the Smart Cities Kiosk

REMOTE SENSORS MAKE SENSE

Through the Commonwealth Government's Smart Cities and Suburbs Program we are using smart sensor technology to help us to make ours a truly livable, modern and Smart City. Fifteen bin level sensors have been installed on street litter bins along a section of Lady Gowrie Drive. The sensors allow the driver, with the use of a tablet device, to identify bins that require emptying, and to eliminate the need for unnecessary stops at bins that don't. Sensors on bins on Largs Bay and Semaphore Jetty also reduces unnecessary trips down the jetties to bring the bins to the truck for emptying. This sensor technology will improve our efficiency in waste management, by reducing both costs and carbon emissions, and improving safety for drivers and pedestrians.

Other sensors at Hart's Mill in Port Adelaide and Thomas Turner Reserve in Valley View gather information about heat retention and ground temperature at playgrounds. The data provides information for our shading and open space policies and will ultimately help us improve experiences for you.

Further sensors at Thomas Turner Reserve monitor car park usage, and will help us assess the future need for parking spaces and other resources at this popular community facility.

The possibilities for future use throughout PAE are endless, and the data we gather using smart sensors will equip us to make sound policy and program decisions for your community needs.

CONTACT YOUR COUNCILLORS

At the City of PAE we have a Mayor and 17 Councillors that are located around seven wards. They are your representatives, so if you have any concerns, ideas or issues you would like to discuss with them please contact an Elected Member in your Ward.

Opportunities to

Have Your Say

There are regular opportunities for you to have your say on PAE projects and initiatives. By getting input from you - the people who live, work, study, play, own a business or care for someone in PAE, we can get a better understanding of your experiences and perspectives. We know that as an important part of our community you have the insights, skills, knowledge and experience that are of value for us and can influence the work that we do and the decisions we make.

We are always seeking to create community consultation processes that are easy to participate in, and which take into account any barriers to participation experienced by particular groups, with special attention given to the needs of children, young people, women, older people, people with a disability, Aboriginal and Torres Strait Islander people and people from a culturally and linguistically diverse background.

Current Major Consultations *Spring 2019*

CITY PLAN REVIEW

Improving our community

A new Council was elected in November 2018, and in conjunction with the Elected Members, we are now reviewing our City Plan 2030. This overarching, high level plan is an articulation of our purpose as a Council. It captures and presents the aspirations of the people of PAE, Elected Members and staff for the future.

To become familiar with the five themes of the current plan, and see some of the achievements we have made during the life of the plan visit www.cityofpae.sa.gov.au/cityplan where you can also let us know if you have seen improvements in line with the plan, in your local community.

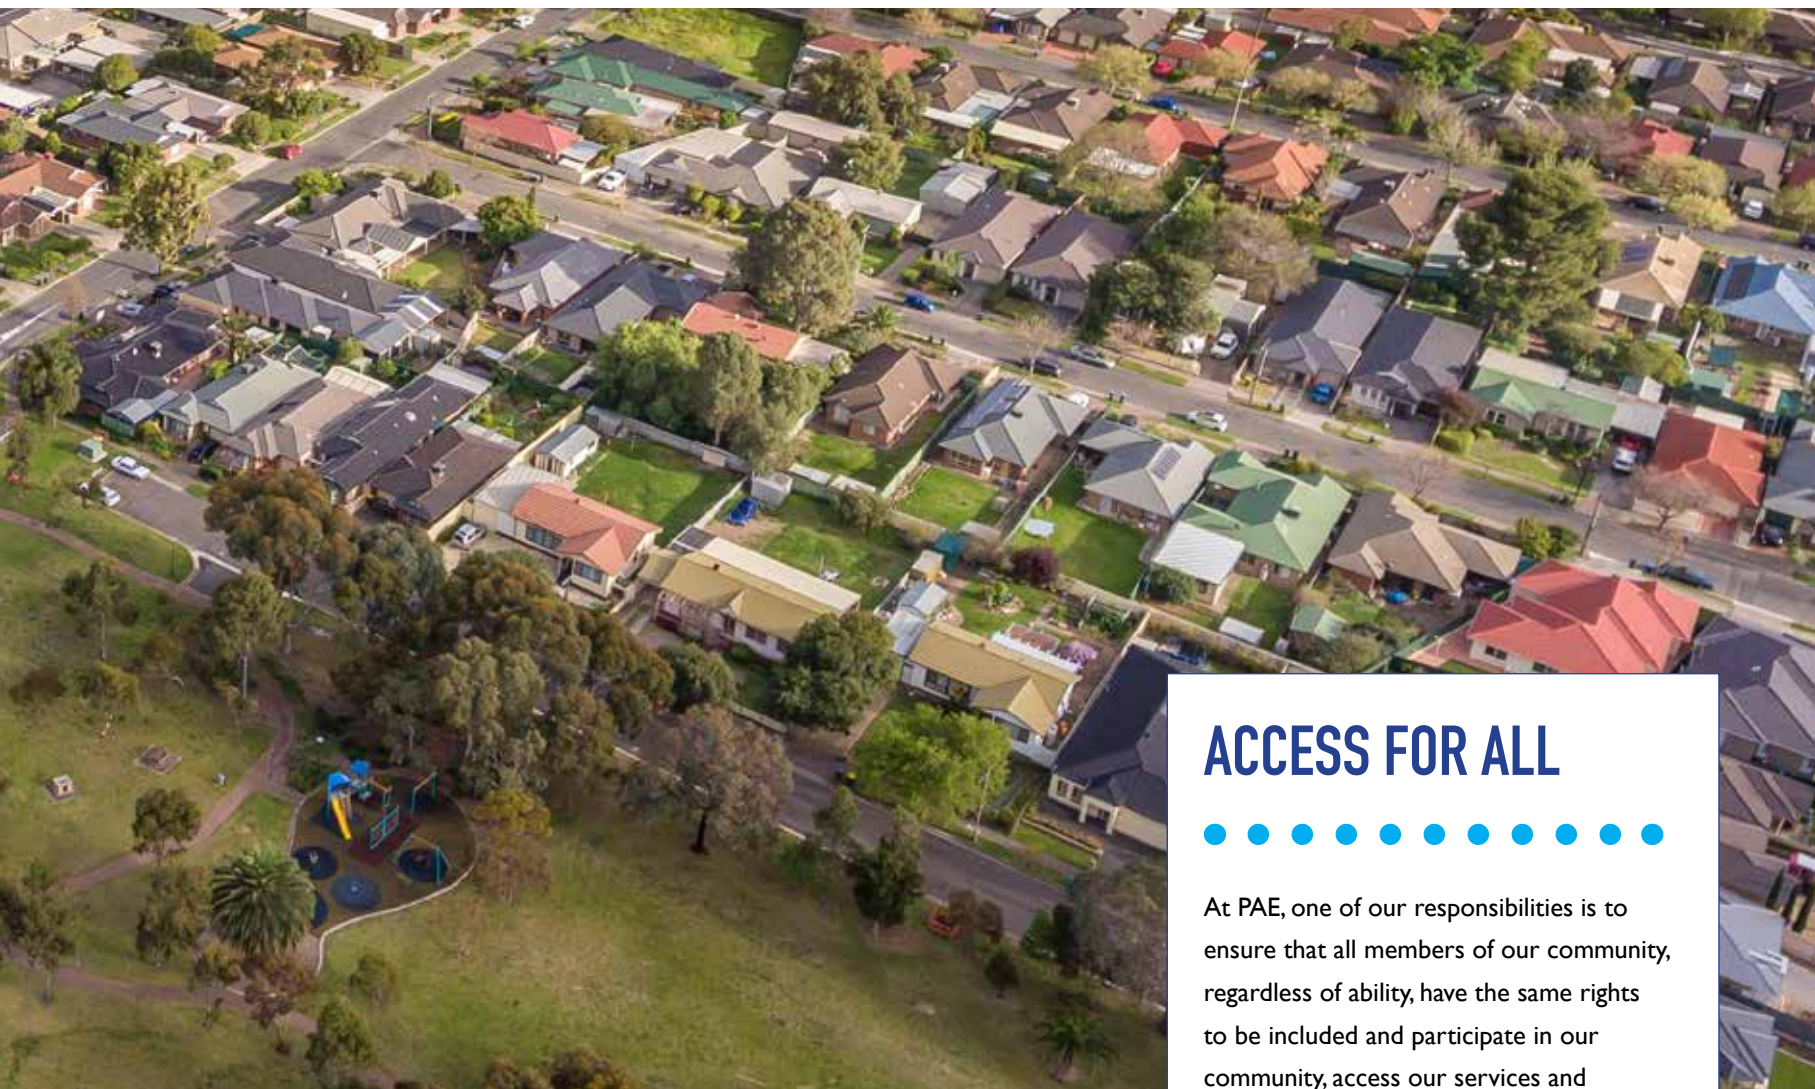

ARTS AND CULTURE PLAN

Celebrating our diversity

Creating opportunities to access and participate in arts and culture is a priority for us and work is underway on a new Arts

and Culture Strategy 2020-2025. Arts and culture plays an important role in delivering the objectives of our City Plan - so we want to make sure we plan well and our strategy is right for PAE now and into the future. We know that art can be used as a tool to help us achieve our goals across all areas of our work - from helping people understand environmental issues to promoting waste reduction to helping people to connect. Because local perspectives and voices are important, we took to the road during July and August, holding consultation sessions at seven locations, with one in each Council ward. These sessions gave real insight into the preferences and cultural interests of our geographically diverse communities. We also had conversations with key artists and arts organisations, community service organisations and businesses across and beyond. Creative interviews were also held in shopping centres in Port Adelaide, Kilburn and Greenacres.

An online survey was developed from the key

ACCESS FOR ALL

At PAE, one of our responsibilities is to ensure that all members of our community, regardless of ability, have the same rights to be included and participate in our community, access our services and products, and be considered in the work that we undertake.

 8405 6600  www.cityofpae.sa.gov.au/publicconsultation

findings of the consultations and promoted during August.

The new strategy, which will guide our direction and priorities for the next five years will be released in early 2020.

COMMUNITY LAND MANAGEMENT PLANS

Ensuring that council land is fit for purpose

There are more than 700 parcels of Council owned Community Land in the City of PAE. These parcels are generally grouped into categories related to their intended use, with a plan created for each category with a common purpose.

Community Land Management Plans are strategic documents that outline how we propose land that is managed by us to be used by you in the community.

The objectives that are included in each plan, provide a framework and guide our decisions in relation to community land.

Performance targets and measures also keep

us accountable to the objectives of each plan. We are considering the adoption of further individualised plans for property that does not fit within categorised plans, such as Semaphore Foreshore and Folland Park, as well as additional categorised plans such as coastal foreshore and wetlands.

During engagement processes, we will be seeking feedback about the overall suite of categorised plans and any individualised plans that are proposed.

It is important we obtain your feedback about the plans because they relate to our biggest and most widespread assets, which are our public facilities and spaces.

Feedback gathered during the engagement process will influence the way this land is managed and ultimately assist Council in deciding to adopt or amend the draft plans. Consultation will open in September with further information, including copies of all draft plans currently available on our website.

IN THE 2016 CENSUS 6.9% OF RESIDENTS REPORTED NEEDING HELP IN THEIR DAY-TO-DAY LIVES DUE TO DISABILITY, AND 12.6% PROVIDED UNPAID ASSISTANCE

We are always striving to support and promote access and inclusion that ensures all members of our community have the best opportunities to participate in community life.

Work on our Inclusive Communities Plan has been underway for the past year, with community and staff having had opportunity to share their thoughts about ways we can strengthen inclusion and access for all. The Plan spans seven key areas; Commitment, Advocacy, Culture, Built Environment, Products & Services, Communications & Marketing, and Information Communication Technology. Comments about the draft plan can be submitted until the end of October.

Use the green bin for food waste to reduce household waste and lighten the landfill load.

If it grows, it goes

in your green organic waste bin

▲ Local Councillors working together to sort green waste

▼ By using your kitchen caddy you can reduce waste sent to landfill

Our 2018 kerbside audit found 64% of materials from our blue lid wheelie bins should have been placed into a yellow or green lid wheelie bin to be recycled or composted.

We also found that food waste made up 33% of these materials which were sent to landfill. So we encourage recycling and composting, as it is better for our environment than landfill. In addition, waste going into landfill is now very heavily taxed by the South Australian Government.

The Solid Waste Levy has been applied as a way to encourage recycling and as a financial incentive to create local jobs and increase resource recovery.

This tax will increase to \$140 per tonne on 1 January 2020 which means that for the estimated 27,850 tonnes of waste from PAE going to landfill in the next financial year we will be paying a Solid Waste Levy of \$3.48 million.

So we need your help to not only reduce landfill, but to also reduce these costs.

The best way to reduce household waste to landfill is to use the green bin for food waste.

We provide kitchen caddies and compostable bags free of charge to make it easy for you to put your food waste into the green bin. Remember, if it grows, it goes! Breads, dairy foods, meat, bones, eggs, fruit and vegetable scraps, tea bags and coffee grounds, tissues, paper bags and hair can all go in the counter top bin and then out to the green waste bin for collection.

WELCOME THE FESTIVE SEASON AT THE TWILIGHT CHRISTMAS PARADE

6.00-9.15pm | Saturday 16 November
Commercial Rd, Port Adelaide,

The Twilight Christmas Parade is an evening of celebration, entertainment and fun for our whole community, and attracts more than 15,000 families each year.

With our first Twilight Christmas Parade taking place in 1988, it has become a popular and much anticipated evening on our community event calendar.

Every year the local community gathers to watch a passing parade of over 60 floats and 1,000 people made up of local bands, sporting clubs, businesses, volunteers, community and hobby groups and more, followed by a festive street party by the iconic Port Adelaide Lighthouse.

This year the Twilight Christmas Parade starts at 6.00pm and moves along Commercial Road, and is followed by a street party with free amusement rides, live entertainment, Santa's Cave, food trucks, workshops, fireworks and more.

This year Australia's premier ABBA tribute band ABBA Gold will delight audiences with all our ABBA favourites!

There will also be roving and pop-up performers, elves, face painters, fairies, robots, Kooky Kidz Markets – for Christmas shopping – local artisans and maker for bespoke gifts and decorations Stop by Santa's Cave, a cosy scene from inside Santa's workshop, designed by local artist Danica McLean.

Take a ride on the Ferris wheel and enjoy many more rides and surprises.

The evening ends with a spectacular fireworks display over the Port River. We thank our sponsors, local businesses, Andersons Solicitors and Southern Sea Eagles for their generous support.

This is a green event. Remember your water bottle – free water available on site thanks to SA Water's Quench Bench.

{ PAE } People

Darryl Poole | Photographer

Port Adelaide football legend Darryl Poole knows that it is the people who make a place. Highlighting unique stories of local people was the motivation behind starting his Facebook page *It's Port Adelaide*. Darryl will be expanding on this soon for our new PAE People project, by capturing more of the inspirational, touching and unique stories of the people living across the city.

I tell stories and share photos because the local, selfless champions within our community deserve to be celebrated and embraced. By shining a light on them it acknowledges their efforts and highlights that there are so many good people doing good things.

Telling the stories of the people who make up our diverse community helps to create stronger connections, and Darryl hopes that together PAE can continue to grow as a collective and everyone has the opportunity to thrive.

He will be travelling around PAE to capture stories and photos, and will be sharing them through our social media pages and a regular PAE People feature.

Darryl shares our view that people are the most important ingredient in any place. "There's no doubt the shiny things are important, but it's the people that make our community so incredible," he says.

If you know of any unsung heroes that should be acknowledged as PAE People, please contact communications@cityofpae.sa.gov.au

INCLUSIVE EVENTS AT PAE LIBRARIES

Making access easier

Our Libraries offer a range of events and programs to meet the diverse needs of our community.

Following the success of Multicultural Storytime earlier in the year at Greenacres, we ran new sessions at Enfield, Parks and again at Greenacres Library in August.

Featuring interactive songs and stories in Chinese, Hindi and Korean, we welcome people from all cultures to these sessions.

Each of our libraries is accessible by wheelchair and Parks Library also has a Changing Places, an adult changing facility accessible with a MLAK system key that enables people with a disability direct access to these facilities.

There is also an accessible public computer available at Parks and Port Adelaide Library. For more information, contact your local library.

RECRUITING FOR THE FUTURE

New system makes recruitment easier

It's the people we hire that enable us to deliver the most effective programs and services for our community. Our new recruitment portal

tells you everything you need to know about working at the City of PAE and makes it easier to apply for a position. Candidates no longer need to create a log in, and the new system also allows applications to be tracked from any device.

 www.careers.cityofpae.sa.gov.au

GOING UNDERGROUND

Jetty Road Upgrades

The City of PAE is working with SA Power Networks to underground power along the western section of Jetty Road, Largs Bay between the Esplanade and Military Road.

The undergrounding works by SA Power Networks is currently underway and is expected to be completed by December 2019. This is a great opportunity for PAE to undertake a streetscape upgrade of this historically significant road.

Our placemaking, engineering and heritage staff have been working with a group of local residents to develop a concept plan and construction will commence in the 2020-2021 financial year.

The concept includes improved road layout, parking, landscaping, lighting, outdoor dining

opportunities, wider footpaths, renewal of the road pavement and the creation of both permanent and temporary public artworks that reflect the area and highlight the history. We have been working with SA Power Networks and local residents during the consultation period for the undergrounding portion of this project, and there will be further opportunity for input on the placemaking aspect of this project soon.

PLANTING AT PLANO

Making a difference on White Ribbon Day

In 2015, PAE became the first council in the state to achieve White Ribbon Accreditation for our commitment to promoting a culture of respectful relationships with a zero tolerance of violence against women.

As a community leader, we believe we have a role in driving social change and leading by example when it comes to the support and protection of women.

Being part of the White Ribbon program has helped us to reflect on and adapt our organisational culture, policies, procedures and how we can support those affected by family violence and provide our employees with

education, awareness, knowledge and skills in addressing violence against women. To recognise White Ribbon Day on Friday 22 November this year, we will be planting a claret ash tree at a public event to be held at Plano Park, Clearview. This tree is a meaningful choice, as it symbolises new beginnings and rebirth. Like all deciduous trees, the claret ash will lose its leaves in the cold months but blossoms anew in spring. The location is also significant, being a high volume traffic area, that connects the eastern part of PAE to the entry to the coast. The tree is currently being cared for at our depot, and as it matures will bring a splash of its purple red colour to the site.

CLUBROOMS ON POINT

Upgrades create sporting opportunities for girls
We are working with the Government of South Australia and local sporting clubs to help the next generation of football players on Lefevre Peninsula. The newly refurbished clubroom and new female changing rooms for Port District Football Club at Largs Reserve will benefit local girls who are keen to play footy. These improvements have resulted in greater equality

and inclusion throughout the club, as well as improved disabled access to amenities. It is also expected that more teams will be using the improved spaces for training, meetings and events. This upgraded community facility was designed and project managed by PAE in consultation with the Port District Football Club, and funded by a \$120,000 State Government grant.

ON THE ROAD

Inspecting and improving our roads for the future
During September we'll be undertaking a condition assessment of our 692km road network. Occuring every four years, this review provides data to help our engineers determine the required budget, treatment type, and year for works. Monitoring the condition of our road network ensures this important asset is maintained in a safe and cost effective manner. You may see these vehicles out and about, as they are clearly identifiable with their numerous roof top cameras and other road assessment equipment They are driven by experienced operators and traveling at normal traffic speeds with hazard lighting and other warning devices.

GAME, SET, MATCH!

Online access to local courts
Access to courts at Greenacres Tennis Club has recently been improved with the help of a Federal Government grant to create an innovative online booking platform that has opened up tennis to more people than ever before. By using digital technologies to attract and retain participants, Tennis Australia's new online booking system will not only boost participation and physical activity, but can deliver strong health, social, psychological and economic benefits as well.

DRIVING ENVIRONMENTAL CHANGE

Turning recycled plastic into new roads

We are working with Fulton Hogan to turn the equivalent of 140,000 recycled plastic bags into 110 tonnes of new road in Glanville. PlastiPhalt® was developed and manufactured by Fulton Hogan using waste plastic that would formerly have gone to landfill, and is the first large scale use of this material in the State. The plastic is dissolved within bitumen and no free plastic particles are released into the environment during this process, which is similar to adding sugar into your tea, to become one substance once combined.

The bitumen mix also includes 20% recycled asphalt pavement.

The use of recycled plastic in asphalt mixes not only helps to deal with an environmental problem, but it also makes our roads smoother, safer and more economical.

This recycling project aligns with PAE's commitment to sustainable transport and roadworks solutions.

DIGITAL SPRINGBOARD

Landing local jobs

In a partnership with SA Public Libraries, Infoxchange and Google, PAE Libraries has launched a series of workshops designed to improve digital skills, open up new employment and career opportunities and build confidence. Over the past few months, we've worked with a number of groups, including local organisation

Novita, to support the development of individual and business skills.

The Digital Springboard course is free and contains practical tips for CV and interview skills, assistance to explore ideas to get your small business idea off the ground, and social media advice and guidance for getting your message out there.

These sessions have inspired many, and we have received success stories from workshop participants who have already secured jobs. Digital Springboard is just one part of what Libraries can offer, and more courses are coming soon. For more information:

www.cityofpae.sa.gov.au/library

SHELF ESTEEM BOOST

Join the new PAE Libraries podcast

One of the biggest advantages of working at a library is not only being surrounded by so many books but also hanging out with book

lovers.

As we love talking about books so much we thought we'd create our own podcast.

Shelf Esteem will become your monthly reading guide, providing an insight into must-read books. Hosted by Sonja and Warwick, it will be fun and entertaining and we'll also invite guests from time to time to highlight different genres. We welcome your feedback so let us know what you think. Listen at:

www.cityofpae.sa.gov.au/library

STORMWATER FLOWS

It's a dirty job but somebody has to do it

In the lead up to winter this year we had a big cleanup of stormwater infrastructure to ensure that it flows freely.

While we maintain the system all year round, litter is always a problem as big downpours bring litter from the streets into the stormwater drains. While a lot of this smelly and dirty work goes unseen, it is vital to ensure that when the rain comes, water can drain away to where it needs to go.

This is especially important as our coastal and river areas receive stormwater from systems right across Adelaide.

TAKING SEED

Helping gardens grow

Since the Seed Library opened at Greenacres Library, over 500 seeds have been "borrowed" by 470 green-thumbed customers.

With Spring just around the corner, now is the time to get planting. Come by the library to check out the collection and bring some seeds in if you have spares.

MOVERS AND SHAKERS

Recognition at Brand SA Fast Mover Awards

Congratulations to two local PAE businesses that picked up Brand South Australia Fast Mover awards for their creative, innovative and industrious business practices.

Taking number one spot was Next Gen Flooring, a commercial flooring contractor established in 2015 by directors Trav Bird, Craig Cooper and Luke Skoblyk.

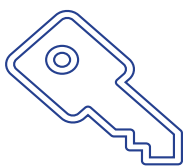

Third place was awarded to after-sales machinery company Crusher Parts International, founded by Daniel Ritchie in 2015, which this year experienced a 189% growth in revenue.

BARTON RESERVE UPGRADES

Improving safety in open spaces

Barton Reserve in Blair Athol is used by local families as well as children from the nearby St Paul Lutheran School. We have just completed construction of a new fence right around the reserve to prevent children running out into the road.

The entrance remains wide and open, and is located underneath a sign designed by students from the school.

We've recently been awarded funding by the National Motor Vehicle Theft Reduction Council to help spread the word about vehicle theft and how to prevent it. One of the simplest steps you can take to protect your car is to store your keys out of view and away from external doors and windows.

There is also a new wheelchair accessible ramp that replaces the muddy hill used by teachers, students and parents to access the reserve. This project was designed and constructed by PAE in consultation with the local community to ensure that it meets local needs. Funding was received from the State Government to complete this project.

FOOTPATH GRINDING

Preventing trip hazards on local footpaths

A footpath grinding trial was recently conducted at Northfield. Grinding is a way to remove trip hazards from concrete footpaths at a far lower cost than re-laying an otherwise good section of path. It also greatly extends the life of footpath segments which have shifted over time due to ground movement or tree roots.

We have over 1,200km of footpaths in PAE

which is equivalent to the distance from Adelaide to Sydney. Every four years we obtain detailed video imaging and condition assessment of every centimetre. Last year, following a full audit of footpaths and hazards across PAE, the trial was started, and if successful will be extended throughout the region.

STATEWIDE PLANNING REFORM

New planning system on the way

Planning and development rules provide the foundations for where we live and work, what we live in, what we can build if we are land owners or developers, and what opportunities we get to have a say on what our neighbours want to do with their land.

The State Government will soon be consulting on reforms to the new Planning, Development and Infrastructure Act 2016 (PDI) which will replace the existing Development Act 1993. It will re-write the zoning provisions of South Australia's 68 Council based Development Plans into one statewide 'rule book' for all. Every property will have its planning provisions and zoning modified to some degree by the revocation of Council's Development Plan and its replacement with the State-wide Planning and Design Code.

The State Government's consultation on the Code, as it will apply to our Council area will commence in October 2019, with it intended to come into operation in July 2020.

www.saplanningportal.sa.gov.au

HONOURING OUR HEROES

Each year in association with the National Australia Day Council we seek nominations for our Australia Day Awards, that recognise and celebrate the achievements, service and commitment of PAE residents and organisations who have made an outstanding contribution to the community.

Nominate someone who has made a difference in PAE. Nominations open Friday 4 October.

www.cityofpae.sa.gov.au/recognitionaward

{ PAE Past }

100 YEARS OF FLYING HIGH

Tuesday 12 November 2019 marks the 100-year anniversary of the famous flight from England to Australia in a Vickers Vimy bomber, by Semaphore born Ross Smith. He was one of our most highly decorated war veterans from WWI, serving in

Gallipoli and Romani (in the Sinai), and took part in attacks, aerial photography missions, and bombing raids, and on one occasion even landed in the face of the enemy to rescue a downed comrade. During his extensive war service, Smith was awarded the Air Force Cross, twice awarded the Military Cross, and received the Distinguished Flying Cross three times. While still with the flying corps, he made pioneering flights between Cairo, Calcutta, and Timor in his twin-engine Handley bomber.

On 12 November 1919, assisted by his brother Keith and two mechanics, Wally Shiers and Jim Bennett, he set out from

England to Australia in a large Vickers Vimy bomber. It was an epic 28-day flight, completed at an average speed of 137kms per hour, but not without mishap. On their arrival, the pioneering flyers were welcomed home as national heroes; their £10,000 prize money was shared equally and the two brothers were knighted. In 1922, while preparing for a record-breaking around the world flight, Ross Smith, who was not yet 30 and Bennett were killed in a crash. Their famous Vimy aircraft is on display at Adelaide Airport, and PAE Council is considering erecting a suitable memorial in PAE to honour his bravery.

SPRING EVENTS

We're bringing you a great range of varied events- it's on in PAE!

Sat 26 Oct

Live music, food trucks, drinks & entertainment, paired with sports played on and around the beach at Semaphore, this incredible multi-sport festival held over one mammoth weekend.

COMMUNITY GROUPS

There's always new programs being delivered from our Community Centres, Halls, Libraries and Clubs.

Women Moving Wisely

WiseMove for Women is a ten week program designed to build wellbeing and create opportunity to connect with others. The program focuses on physical activity and is framed around our 7 Ways to Wellbeing- Connect, Learn, Be Active, Take Notice, Give Back, Eat Well and Sleep Well. Topics are guided by participant interests and include body kindness, dressing to impress, Pilates and TaiChi. The program will be offered throughout the year at Lefevre Community Stadium and the new Lights Community and Sports Centre.

www.cityofpae.sa.gov.au/wellbeing

New Tai Chi Program

The Taoist Tai Chi Society is a not for profit, international group which runs classes all over Adelaide and in the hills. The organisation will celebrate 15 years of Tai Chi in Adelaide next year and has recently been running sessions at Kilburn Community Centre twice a week on Monday evenings and Saturday mornings.

Men's Shed Opening Soon

A Community Men's Shed is where people volunteer their time using their skills to make goods for local projects.

Funded by the Department of Premier and Cabinet and supported by the City of PAE, the new Regency Community Men's Shed is looking for senior people to join its committee, to use their trade and craft skills, learn new ones, and to make new friends.

Volunteers Wanted

We are looking for volunteers to help out at Kilburn Community Centre during the school holidays. The role will include setting up giant games, which include Jenga, Kerplunk, hopscotch and mini golf, and helping children and their parents to play the games.

Growing For Gold

Kids aged 3-16 can come and try a variety of sports for free at local clubs these school holidays.

the LIGHTS

COMMUNITY AND
SPORTS CENTRE

The Lights Community and Sports Centre – a shining example for PAE

There are so many amazing, unique and versatile spaces around our city – but our state-of-the-art The Lights Community and Sports Centre, Corner East Parkway and Hampstead Road, Lightsview, takes things to a whole new level.

‘The Lights’ lives up to its name. Always vibrant, with plenty going on, it’s where we can all go along and connect, learn and participate in a whole range of activities that improve both our physical and mental wellbeing.

The centre also boasts cutting edge smart-court technology – a first for indoor community and sports centres in our state. This tech includes live streaming, video on-demand, analysis tools for coaches and their teams, and a live replay function that will be the envy of other stadiums.

The Lights will also be a showcase to the nation when the Australian Volleyball League digs up its best, as South Australia takes on Western Australia on November 2 and 3.

But the Lights is not only a place for the athletes among us to enjoy. Everyone can come and participate and all are welcome. There are meeting rooms, recreation spaces and equipment designed to suit all needs and interests. The facility also features plenty of public art installations and there’s even access to a library.

We are currently putting together the team who will bring the new centre to life and soon we’ll tell you how you can get involved.

In the meantime, if you’d like to know more, jump onto www.thelights.com.au – and remember to head down to the Lights Community and Sports Centre for the fun-filled official opening during Spring 2019.
